

DRIVING SURFACE PERFECTION™

CUSTOM CAN Pneumatic Aerosol Filling Machine

The **Custom Can Pneumatic Aerosol Filling Machine** is a pneumatic aerosol filling machine that produces spray paints in thousands of colors made to order for both professional and DIY customers. A single shot of 100ml paint produces a 400ml aerosol ready to use. The machine is designed for repetitive aerosol can filling in a professional environment. Easy fit spares available.

- **Easy to operate** - with “One-Shot” pneumatic filling operation
- **Fill single or multiple aerosols** - compatible with solvent and waterborne paint products
- **Accurate and safe filling** - self position of the aerosol cans into the filling cylinder
- **Simple to clean** - only clean 2 parts of the machine

EFFICIENT

EASY TO USE

SIMPLE TO CLEAN

Every Custom Can Color Center offers precise color matching in aerosols for:

- Corporate colors
- Vehicle finishes
- Industrial finishes
- Special effects
