

UP2002 SYSTEM 20 WATERBASED ANTI-STATIC PANEL WIPE

Description

SYSTEM 20 Waterbased Panel Wipe is a carefully formulated anti-static, anti-silicone panel wipe which provides a powerful, aggressive degreasing action that avoids any attack on existing paint films.

The use of **SYSTEM 20 Waterbased Panel Wipe** is vital before undertaking any painting operation in order to remove contaminants such as wax, grease or silicones.

SYSTEM 20 Waterbased Panel Wipe offers excellent anti-static properties enabling the effective removal of surface static built up during the preparation stages prior to over coating.

Health and Safety Statement

FOR PROFESSIONAL USE ONLY. Read full instructions before use. **IMPORTANT:** This product contains hazardous materials and therefore appropriate personal protective equipment should always be used. Please refer to the label and consult the material safety data sheet for full handling instructions and personal protection information. These are available via your local stockist or via the U-POL website at WWW.U-POL.COM. U-POL disclaim any liability where the user does not wear the recommended personal protective equipment.

Benefits

- Safe To Use On All Substrates, Especially Solvent Sensitive Plastics
- Compatible With Most Paint Systems (Including Waterbased Systems)
- Very Low Voc Content
- Anti-Static & Anti-Silicone
- Non Flammable & Non Hazardous

Instructions

Apply generously to the area to be coated using a clean, lint-free cloth.

While the panel remains wet, wipe with a clean dry cloth until the degreaser has been completely removed.

Important

SYSTEM 20 Waterbased Panel Wipe is designed for use over most automotive substrates and existing paint surfaces.
