U-POL Limited hereby advise that the U-POL range of products have been specifically developed for Automotive Refinish applications and as such, providing they are used in accordance with our guidelines and recommendations, will give long and lasting repairs. In this respect U-POL Automotive Refinish products meet the requirements of: BS 10125:2014+A1:2016 clause 3.5.2.3 Part(b).

U-POL Limited is an ISO9001:2015 accredited company.

All U-POL products have been developed with significant shelf life stability and are marked either with the date of manufacture, date code and/or an expiry date depending on the production line used. We trust this gives every assurance to our valued customers.

Note: All shelf life information is based on the product remaining unopened in its original packaging in good storage conditions. Poor storage conditions may affect the shelf life of these products. The information given on this sheet is for guidance only. This information is liable to modification from time to time in the light of experience and our policy of continuous development. For any other information please contact us at technicalsupport@u-pol.com for assistance.

Shelf life should be determined from the date of manufacture. The coding systems used per product are as follows:

A	Date of manufacture, unique 5-digit batch code and expiry date printed on base of tin.
B	Date of manufacture and/or 5-digit batch code printed on base of packaging/adhesive label/adhesive label on kit box. e.g. 93822 = 2019, week 38, batch 22
