

**U-POL USA/CANADA SHELF LIFE DOCUMENT Version 3.0**

**DRIVING SURFACE PERFECTION™**

U-POL US, INC hereby advise that the U-POL range of products have been specifically developed for Automotive Refinish applications and as such, providing they are used in accordance with our guidelines and recommendations, will give long and lasting repairs. All U-POL products have been developed with significant shelf life stability and are marked either with the date of manufacture, date code and/or an expiry date depending on the production line used. We trust this gives every assurance to our valued customers.

**Note:** All shelf life information is based on the product remaining unopened in its original packaging in good storage conditions. Poor storage conditions may affect the shelf life of these products. The information given on this sheet is for guidance only. This information is liable to modification from time to time in the light of experience and our policy of continuous development. For any other information please contact us at technicalsupport@u-pol.com for assistance

Shelf life should be determined from the date of manufacture. The coding systems used per product are as follows:

- A** Date of manufacture, unique 5-digit batch code and expiry date printed on base of tin.
- B** Date of manufacture and/or 5-digit batch code printed on base of tin/adhesive label/adhesive label on kit box. e.g. 93822 = 2019, week 38, batch 22
- C** Date of manufacture and unique 5-digit batch code and printed on base of tin/adhesive label.
- D** Date of manufacture and unique 5-digit batch code printed on cartridge.
- E** Date of manufacture and unique 7-digit code printed on lid.
- F** Date of manufacture and unique 6-digit batch number printed on packaging.
- G** Date of manufacture and unique 4-digit batch code and printed on base of tin.
- H** Date of manufacture and batch number incorporated into 8-digit code e.g. 18071234 = (18) 2018, (07) July, batch number 1234
- I** Date of manufacture printed on tin.
- J** Date and time of manufacture printed on neck of aerosol.
- K** Date of manufacture and weight of sachet embossed on seal. e.g. 40G 110717
- L** Unique 5-digit batch code printed on packaging/adhesive label/embossed on seal. For the date of manufacture, please quote this code to technicalsupport@u-pol.com.
- M** 9-digit code printed on tube. e.g. 17149GR78 = batch number 17149GR, weight 78 g. For the date of manufacture, please quote this code to technicalsupport@u-pol.com.
- N** Date of filling and unique 7 digit batch code stamped on adhesive label.
- O** LOT number ending in a unique 5-digit code printed on sachet. For the date of manufacture, please quote this code to technicalsupport@u-pol.com.
- P** Date of aerosol manufacture and 5-digit aerosol base batch code printed on base of tin. e.g. 93822 = 2019, week 38, batch 22
- Q** Date of aerosol manufacture and unique 5-8 digit batch code printed on base of tin.

### DRIVING SURFACE PERFECTION™

#### U-POL USA/CANADA SHELF LIFE DOCUMENT Version 3.0

U-POL US, INC hereby advise that the U-POL range of products have been specifically developed for Automotive Refinish applications and as such, providing they are used in accordance with our guidelines and recommendations, will give long and lasting repairs.  
 All U-POL products have been developed with significant shelf life stability and are marked either with the date of manufacture, date code and/or an expiry date depending on the production line used. We trust this gives every assurance to our valued customers.

**Note:** All shelf life information is based on the product remaining unopened in its original packaging in good storage conditions. Poor storage conditions may affect the shelf life of these products. The information given on this sheet is for guidance only. This information is liable to modification from time to time in the light of experience and our policy of continuous development. For any other information please contact us at technicalsupport@u-pol.com for assistance

Shelf life should be determined from the date of manufacture. The coding systems used per product are as follows:

- A** Date of manufacture, unique 5-digit batch code and expiry date printed on base of tin.
- B** Date of manufacture and/or 5-digit batch code printed on base of tin/adhesive label/adhesive label on kit box. e.g. 93822 = 2019, week 38, batch 22
- C** Date of manufacture and unique 5-digit batch code and printed on base of tin/adhesive label.
- D** Date of manufacture and unique 5-digit batch code printed on cartridge.
- E** Date of manufacture and unique 7-digit code printed on lid.
- F** Date of manufacture and unique 6-digit batch number printed on packaging.
- G** Date of manufacture and unique 4-digit batch code and printed on base of tin.
- H** Date of manufacture and batch number incorporated into 8-digit code e.g. 18071234 = (18) 2018, (07) July, batch number 1234
- I** Date of manufacture printed on tin.
- J** Date and time of manufacture printed on neck of aerosol.
- K** Date of manufacture and weight of sachet embossed on seal. e.g. 40G 110717
- L** Unique 5-digit batch code printed on packaging/adhesive label/embossed on seal. For the date of manufacture, please quote this code to technicalsupport@u-pol.com.
- M** 9-digit code printed on tube. e.g. 17149GR78 = batch number 17149GR, weight 78 g. For the date of manufacture, please quote this code to technicalsupport@u-pol.com.
- N** Date of filling and unique 7 digit batch code stamped on adhesive label.
- O** LOT number ending in a unique 5-digit code printed on sachet. For the date of manufacture, please quote this code to technicalsupport@u-pol.com.
- P** Date of aerosol manufacture and 5-digit aerosol base batch code printed on base of tin. e.g. 93822 = 2019, week 38, batch 22
- Q** Date of aerosol manufacture and unique 5-8 digit batch code printed on base of tin.
