

UP0620

# U-POL POLYESTER PRIMER SURFACER

## HIGH BUILD. FAST SANDING. EXCEPTIONAL FILLING POWER.

Achieve a smoother repair process from the very first coat with **U-POL Polyester Primer Surfacer UP0620**. This high-build polyester primer surfacer is engineered to quickly fill surface imperfections, level repaired areas, and create the ideal foundation for a quality finish.

Formulated with an advanced air-drying polyester resin, UP0620 delivers outstanding filling capability, excellent adhesion, and superior sanding characteristics. Its carefully balanced pigmentation promotes easy, uniform sanding, while the high-solids formulation minimizes shrinkage for lasting repair quality.

Whether you're repairing fiberglass, metal, plastic, or wood, UP0620 provides the versatility and performance bodyshops need to improve workflow and achieve consistent results.

# WHY CHOOSE UP0620?

### EXCEPTIONAL FILLING PERFORMANCE

Rapidly fills imperfections, pinholes, and surface irregularities to help reduce rework and improve repair efficiency.

### FAST DRYING, FASTER TURNAROUND

Designed to be sandable in as little as 45 minutes to 1 hour, helping shops move repairs through the process more quickly.

### EASY-TO-SAND FORMULA

Carefully balanced pigmentation delivers smooth sanding characteristics for a refined surface that's ready for 2K primer or sealer.

### BUILT FOR RELIABLE RESULTS

The high-solids formulation provides excellent build with minimal shrinkage, helping maintain repair integrity over time.

## KEY FEATURES & BENEFITS

- High-build polyester primer surfacer
- Excellent filling and leveling properties
- Fast drying and sandable in 45-60 minutes
- Strong adhesion to multiple substrates
- Corrosion-resistant performance
- Minimal shrinkage due to high solids content
- Lead-free and chromate-free
- Isocyanate-free formulation
- Compatible with acrylic, lacquer, synthetic enamel, and 2K urethane topcoats

### EXCELLENT ADHESION OVER

- Fiberglass
- Metal
- Select Plastic
- Wood

### PRODUCT COMPONENTS

UP0620 Gray Primer Surfacer

998 Catalyst

## FILL DEEPER. SAND SOONER. FINISH WITH CONFIDENCE.

U-POL Polyester Primer Surfacer delivers the high-build performance, fast turnaround, and exceptional surface preparation professionals rely on for quality repairs and premium finishes.
