DRIVING SURFACE PERFECTION™

COLOR PERFECTION BEGINS WITH AN EXCEPTIONAL UNDERCOAT.

ACHIEVE THE ULTIMATE FINISH WITH SYSTEM 20 PRIMERS

The key to achieving color perfection begins with an exceptional undercoat. U-pol's new line of System 20 High Build Black and White Primers deliver the same optimal performance as High Build Gray Primer but can also be mixed to provide different shades of gray. The end result: Easier color matching, lower paint consumption and improved productivity.

Like U-pol's System 20 High Build Gray Primer, these new white and black primer colors are also "3" products in 1" for usage as a primer filler, primer surfacer or primer sealer.

CREATE THE RIGHT SHADE FOR ANY COLOR CAR

Achieve 5 shades of gray with white, gray and black. To identify the optimal undercoat color, please refer to paint wheel above.

RAPTOR®

TOUGH AND TINTABLE PROTECTIVE COATING

RAPTOR Tough and Tintable Protective Coating is a durable urethane coating that provides surfaces with a protective barrier that can withstand the toughest situations.

Developed to tolerate most climatic conditions, **RAPTOR** is U.V. Resistant and won't fade or "chalk" even after hours in the sun. **RAPTOR** is also water resistant and helps to protect surfaces from rust, making it perfect for surfaces that are frequently exposed to water, including salt water.

RAPTOR's versatility makes it perfect for almost any application. Spray or roll **RAPTOR** on high traffic areas; it's scratch and stain resistant and easy to clean, simply hose it off. Its flexible formulation can handle impacts without cracking, making it perfect for its most popular application as a truck bedliner.

IDEAL FOR MULTIPLE APPLICATIONS

RAPTOR is unlike other bedliners or protective coatings. 2-component urethane technology far surpasses the durability of epoxy and 1-component coatings. And in case it does scratch (which is tough to do!), **RAPTOR** can easily be repaired. You can't do that with most of the other bedliners and protective coatings!

RAPTOR protects industrial surfaces in the harshest environments as well as the smaller surfaces we rely on every day. It's durable, tintable, looks great and lasts a long time.

USE ON VARIOUS SURFACES

NEW!

RAPTOR Color

Color is a concentrated tint for use with **RAPTOR** Tintable Protective Coating. Mix **RAPTOR** Color with **RAPTOR** Tintable Base to give a rich, UV resistant color that won't fade even after years in the sun. Available in a wide range of colors, choose either a single color or use different colors on other areas to create your own custom look.
