

DRIVING SURFACE PERFECTION™

CUSTOM CAN

Electric Multi-Fill Machine

The **Custom Can Electric Multi-Fill Aerosol Filling Machine** is a fully automated electric aerosol filling machine that features a timer to pump the required amount of paint into each aerosol can. The machine produces spray paints in thousands of colors made to order for both professional and DIY customers. A single shot of 100ml paint produces a 400ml aerosol ready to use. The machine is designed for repetitive aerosol can filling in a professional environment. Easy fit spares available.

- **Easy to install** - no air supply or compressor required
- **Fast** - fills 360 cans per hour
- **Clean filling** - cans can be pre-labelled to save time
- **Minimal footprint** - a more compact design
- **Saves time** - no door means you can switch cans quicker
- **Secure** - easily pull lever to locate the valve securely

Every Custom Can Color Center offers precise color matching in aerosols for:

- Corporate colors
- Vehicle finishes
- Industrial finishes
- Special effects
